

PTTC

Prevention Technology Transfer Center Network
Funded by Substance Abuse and Mental Health Services Administration

Applying Prevention Science to Practice: *Strategic Fit and Evidence-Based Practices in Today's Prevention Landscape*

Webinar Presenters:

Nicole Augustine, MPH, MCHES, CPS

Nicole Augustine, MPH, MCHES, CPS has been working in the field of prevention since 2001. She has a Master of Public Health degree from The George Washington University School of Public Health. Nicole is employed at Wake Forest Baptist School of Medicine as the Project Coordinator for the North Carolina Behavioral Health Equity Initiative (NC BHEI) and the Project Coordinator for the Southeast Prevention Technology Transfer Center (Southeast PTTC). The goal of the NCBHEI project is to support communities in identifying, acting on, and effectively addressing a key behavioral health equity issues. The goal of the Southeast PTTC is to provide training and technical assistance to individuals and organizations in the substance misuse prevention field in the Southeast region of the United States (HHS Regions 4). Nicole is a passionate prevention provider, committed to supporting initiatives designed to address the complex substance use issues affecting our society.

Nicole Schoenborn, MA, CPS

Nicole Schoenborn, MA, CPS, provides evaluation services for the South Southwest and Mid-America Prevention Technology Transfer Centers funded by SAMHSA. Nicole is dedicated to building the capacity of the behavioral health workforce to reduce stigma associated with substance use and mental health issues and make data-informed decisions to improve prevention programs. Prior to joining the PTTC

Network, Nicole provided training and technical assistance for SAMSHA's CAPT as a state/tribal liaison and was the Service to Science Lead for the Southwest Resource Team. For over 10 years, Nicole managed the evaluation and quality improvement services to community-based organizations, clinics, and prisons across Oklahoma working to prevent HIV and care for those living with the disease. Nicole has a master's in experimental psychology and is a Certified Prevention Specialist (CPS) through the International Credentialing and Reciprocity Consortium.
