

## **Sexual Health: Caring For and Empowering Women with Opioid Use Disorders**

### **Overview**

Dr. Hendrée Jones from the UNC Horizons Program will discuss what clinicians need to know about providing family planning services and reproductive/sexual health care to women with opioid use disorders. This presentation is provided in partnership with the ATTC Center of Excellence on Behavioral Health for Pregnant and Postpartum Women and Their Families.

### **Successful Completion**

This course offers .5 contact hours. To receive contact hours, participants must complete the course with a satisfactory grade of 80% or higher on the quiz and complete the Evaluation/Request for Credit form. CNE and certificates of completion will be available immediately upon passing the course and submitting the evaluation.

### **Objectives**

1. Provide a rationale for why all women of childbearing age, including women with opioid use disorders, need access to contraceptive practices
2. Articulate at least three facts that providers need to know about women who use opioids and other substances and how to help them with contraceptive practices
3. Articulate at least three facts that women who use opioids and other substances need to know about contraceptive practices

### **Conflict of Interest**

In accordance with continuing education guidelines, speakers and planning committee members have disclosed financial relationships with commercial interests that may create a potential conflict of interest. Hendrée Jones, PhD has nothing to disclose.

### **Disclosures for Planning Committee**

Sharon Colbert, Angela Bolen, Viannella Halsall, Dodie Rother and Martha Lofgreen have nothing to disclose. Jacki Witt is a consultant for Bayer Pharmaceuticals and Watson Actavis Pharmaceuticals and on the advisory panel for Afaxys (Resolved).
